

# Cloud Engineer

MRC Epidemiology Unit

Closing date 29<sup>th</sup> September 2024  
Job Reference: SJ42917X

# Cloud Engineer

**Salary:**

£40,521 - £54,395

**Contract:**

Fixed Term – 10 months

**Location:**

Cambridge

**Faculty / Department:**

MRC Epidemiology Unit

**Responsible to:**

Digital Tools Team Lead

**Working Pattern:**

Part Time (50%FTE)

**Purpose of the role**

This role will primarily support two projects-

- Migration of Intake24 to AWS
- Setting up data collection and analysis pipelines on AWS for Fenland 3

The role will lead the migration of on-prem codebase to AWS and will ensure the solutions are reliable, scalable and maintainable. This role will have to ensure the security of the cloud infrastructure. They will set up CI/CD pipelines and improve resilience of cloud tools to ensure 24x7 availability of the tool for national and international research.

The post holder will liaise with study and project teams to define technical specifications, undertake development tasks, and ensure that work is delivered within agreed timelines. They will also disseminate and provide technical guidance on cloud related topics to other developers within the Unit. The role will be expected to work reasonably independently within a supportive project team, provide regular progress reports, attend project meetings, and deliver on project milestones.

The role will be embedded in the Digital Tools Team and will interact regularly with the Data Management Team and the IT team. The role will also work with colleagues in the following projects-

**Intake24** (<https://intake24.org/>) is an open source self-completed, online, computerised dietary recall system based on multiple-pass 24-hour recall. It was initially created by Newcastle University (UK), funded by Food Standards Agency, Scotland and is now maintained and developed in collaboration by Cambridge University with Newcastle University, and also Monash University (Australia). The tool is widely used internationally in research and nutritional surveillance and has considerable potential for localisation, translation and adaptation for different research applications and use in different populations and settings. We have led adaptation for South Asia, New Zealand and Fiji and are leading work to adapt the tool for France and the Caribbean.

**Fenland 3** is the third phase of the [Fenland Study](#), a longitudinal clinical study initiated in 2005 and following a cohort of 12,435 participants. In this latest phase, we have introduced a bespoke [Fenland Study app](#) to allow participants to complete questionnaires and some measurements digitally at their own convenience in their own homes before the clinic visit. The Unit is developing a new embedded sub-study where a subset of 1,000 participants will be offered to wear simultaneously a Google Pixel watch and Continuous Glucose Monitor (CGM) for 7-10 days. The data collected will allow our researchers to investigate the interaction between environmental and genetic factors in determining obesity, type 2 diabetes, and related metabolic disorders, and more specifically to understand if some of the tests required to detect underlying conditions could be performed or triggered using data collected remotely. The integration of the Pixel data pipeline will be one of the main tasks for this role.

This is a part time role at 50% FTE that can be performed remotely.

## Key Responsibilities

- Work with stakeholders to develop migration strategy.
- Undertake project migration to AWS and implement scalable, maintainable and secure solutions.
- Automate deployment and implement CI/CD pipelines.
- Implement security measures to best practice standards.
- Set up, evaluate and monitor application performance within the cloud environment and troubleshoot issues.
- Develop detailed documentation of cloud projects, migration roadmap, SOPs and pipelines. Handover documentation to Digital Tools Team at end of the project.
- Meet with end-users to discuss, understand and document their requirements. Provide regular updates to key contacts throughout each project's lifecycle.
- Ensure that all bugs and problems are dealt with in a timely manner keeping key contacts informed as necessary.
- Provide expert technical advice to resolve cloud issues and work with IT team to establish new cloud projects.
- Ensure that the regulations and principles described in Good Clinical Practice (GCP), Good Research Practice and general best practice for cloud engineering are followed.
- Ensure that the regulations and principles of the UK General Data Protection Regulations (GDPR) and the Data Protection Act are followed.
- Capture and formally document new system specifications and end-user requirements.
- Share specialist technical knowledge and programming solutions to contribute towards the wider workings of the Digital Tools Team. This may include researching, evaluating and testing novel solutions where there is no precedent.
- Communicate programming requirements and solutions to non-technical staff clearly and effectively.

# Person Specification

Criteria	Essential	Desirable
<b>Qualifications</b>		
Degree or higher qualification in a relevant subject		✓
AWS certification	✓	
<b>Experience</b>		
Previous experience migrating technical projects to the cloud	✓	
Extensive experience working with AWS services	✓	
Previous experience working with containers and container orchestration	✓	
Previous experience with Infrastructure as Code (IaC)	✓	
Previous experience developing CI/CD pipeline	✓	
Previous experience developing documentation covering any new procedures or applications that are developed	✓	
Previous experience with Google Cloud Platform		✓
Previous experience in working with sensitive data set (for example clinical data, PID)		✓
<b>Skills</b>		
Strong collaboration skills	✓	
Strong interpersonal skills, evidence of building effective relationships with a wide range of staff	✓	
Excellent communication skills and ability to present technical matters to non-specialists and upper management in a fluid and concise manner	✓	
Organisational skills and ability to prioritise a busy workload and be comfortable working to a tight deadline	✓	

## Behavioural Attributes

This section summarises the behavioural attributes (or competencies) that we expect the role holder to be able to demonstrate, at what level and whether this is an essential or desirable requirement.

Full definitions are at: <https://www.hr.admin.cam.ac.uk/policies-procedures/behavioural-attributes>

Please review these and provide specific examples in your application of how you have demonstrated these attributes in your work, education or other experience. It will assist your application if you explain the situation, what you did and what the outcomes were.

Attribute	Level
Valuing Diversity	B
Achieving Results	A
Communication	A
Innovation and Change	A
Negotiating and Influencing	A
People Development	C
Relationship Building	B
Strategic Focus	B

# MRC Epidemiology

The MRC Epidemiology Unit is working to improve the health of people in the UK and around the world.

Obesity, type 2 diabetes and related metabolic disorders present a major and growing global public health challenge. These disorders result from the complex interplay between genetic, developmental and environmental factors throughout life.

The mission of the Unit is to investigate the individual and combined effects of these factors and to develop and evaluate strategies to prevent these diseases and their consequences.

[www.mrc-epid.cam.ac.uk](http://www.mrc-epid.cam.ac.uk)

## Our Research, Teaching and Training

Our research is delivered by MRC core-funded and departmental programmes that are supported by specialist teams in data management, IT, laboratory analysis, statistics, dietary assessment, physical activity and anthropometric measurement, study coordination, field epidemiology and knowledge exchange. MRC core-funded programmes are:

- Aetiology and Mechanisms of Diabetes and Related Metabolic Disorders of Later Life
- Early Life Aetiology and Mechanisms of Diabetes and Related Metabolic Disorders
- Nutritional Epidemiology
- Physical Activity Epidemiology
- Behavioural Epidemiology and Interventions in Young People
- Prevention of Diabetes and Related Metabolic Disorders in High Risk Groups
- Population Health Interventions.

In addition the department leads programmes in Public Health Modelling and Diet and Physical Activity Interventions in Patient Populations.

We lead the **NIHR Global Diet and Activity Research Network (GDAR)**, an international research partnership to help combat poor diet and physical inactivity in low and middle income countries. The partners in the GDAR Network include Universities in South Africa, Cameroon, Kenya and the West Indies. [www.gdarnet.org](http://www.gdarnet.org)

We lead the **NIHR Biomedical Research Centre (BRC) theme in Nutrition, Diet and Lifestyle**, a key element of which is a platform for the measurement of diet, nutrition and physical activity in observational studies, trials, natural experimental studies and surveys.

The Unit runs a **BioRepository**, which provides a facility for short-term storage, processing and arraying of biological samples for the measurement of biomarkers, and also undertakes high-throughput analyses.

**Cambridge Epidemiology and Trial Unit (CETU)** is an NIHR provisionally-accredited clinical trials unit led by the department. CETU focuses on investigator-led randomised controlled trials (RCTs) and other well designed studies that evaluate interventions to improve health care and public health.

The Unit is part of **Cambridge Population Health Sciences Partnership** that runs the **MPhil in Population Health Sciences**. There is a strong commitment to teaching and training at all levels and an ethos that this is part of everybody's role. [www.phs.group.cam.ac.uk](http://www.phs.group.cam.ac.uk)

# School of Clinical Medicine

Doing great work in a great place to work

## About the School

The School of Clinical Medicine currently employs nearly 3,000 people, spanning all varieties of staff type from Academic Professors to administrative support.

In 1976 in response to the recommendation of the Royal Commission on Medical Education in the late 1960's, a complete medical course was re-established in Cambridge with the opening of the School of Clinical Medicine at the new Addenbrooke's Hospital site.

On 21st November 1980, HRH The Duke of Edinburgh, the Chancellor of the University of Cambridge, officially opened the Clinical School Building which presently accommodates the medical library, lecture theatres and seminar rooms.

The University of Cambridge School of Clinical Medicine aspires to change the practice of medicine and improve biological understanding in a wide range of clinical specialties and scientific disciplines. Collaborative research, both within biomedicine and crossing the boundaries to the mathematical, physical and social sciences, is key to our approach. The School also supports key enabling technologies and facilities in imaging, bioinformatics and biological systems. The main areas of research interest are:

- Cancer research
- Cardio-Respiratory Medicine
- Cellular mechanisms of disease
- Diabetes, Endocrinology and Metabolism
- Epidemiology, Public Health and Primary Care
- Genetics and Genetic Medicine
- Haematological and Transplantation Medicine
- Infection and Immunity
- Neurosciences and Mental Health
- Stems Cells and Regenerative Medicine.

**Professor Patrick Maxwell, Regius Professor of Physic and Head of the School of Clinical Medicine**

The School aims to provide leadership in education, discovery and healthcare. It will achieve this through; inspirational teaching and training, outstanding basic and clinical research and integration of these to improve medical practice for both individual patients and the population.

## The School will:

Through inspirational teaching and training, educate individuals who:

- will become exceptional doctors or biomedical scientists
- combine a depth of scientific understanding with outstanding clinical and communication skills demonstrate a caring, compassionate and professional approach to patients and the public and
- are equipped to become future international leaders of their profession.

Through its commitment to the pursuit of excellence, support scientists of international standing in basic and clinical research aiming to:

- understand fundamental biology and thereby the mechanisms underlying disease integrate basic and clinical research
- apply a rigorous mechanism-based approach to clinical problems and
- innovate to solve the health challenges of our society.

# Terms of Appointment

## Tenure and probation

Appointment will be made on a fixed-term basis of 10 months for a specific project with a defined timeframe. Appointments will be subject to satisfactory completion of a 3 month probationary period.

## Hours of Work and Working Pattern

The hours of work for the position are 50% of full-time / 18.5 hours per week, working Monday to Friday.

## Pension

You will automatically be enrolled to become a member of USS (Universities Superannuation Scheme) – a defined benefits pension scheme. For further information please visit: [www.pensions.admin.cam.ac.uk/](http://www.pensions.admin.cam.ac.uk/).

## Annual leave

Full time employees are entitled to annual paid leave of 41 days inclusive of public holidays. For new part-time employees, annual leave will be pro rata'd based on days worked.

## General information

### Pre-employment checks

### Right to work in the UK

We have a legal responsibility to ensure that you have the right to work in the UK before you can start working for us.

If you do not have the right to work in the UK already, any offer of employment we make to you will be conditional upon you gaining it.

**Health declaration** Once an offer of employment has been made the successful candidate

will be required to complete a work health declaration form.

## Qualifications

The person specification for this position lists qualifications that are essential and/or desirable. Please note that if you are offered the post you will be asked to provide your relevant original certificates of these qualifications.

**References** - offers of appointment will be subject to the receipt of satisfactory references.

## Screening Checks

This role requires a basic disclosure security check. Any offer of employment we make to you will be conditional upon the satisfactory completion of this/these check(s); whether an outcome is satisfactory will be determined by the University. The nature of this role means that the successful candidate will also need to undergo a health assessment.

## Equality and Diversity

We particularly encourage women and /or candidates from a Black, Asian and Minority Ethnic background to apply for this vacancy as they are currently under-represented at this level within our University. **(Please see relevant guidance before inclusion: <https://www.hr.admin.cam.ac.uk/recruitment/equality-law-and-recruitment/exceptions-equality-law/positive-action>)**

## Information if you have a disability

The University welcomes

applications from individuals with disabilities. We are committed to ensuring fair treatment throughout the recruitment process. We will make adjustments to enable applicants to compete to the best of their ability wherever it is reasonable to do so and, if successful, to assist them during their employment.

Information for disabled applicants is available at <http://www.admin.cam.ac.uk/offices/hr/staff/disabled/>

We encourage you to declare any disability that you may have, and any reasonable adjustments that you may require, in the section provided for this purpose in the application form. This will enable us to accommodate your needs throughout the process as required. However, applicants and employees may declare a disability at any time.

If you prefer to discuss any special arrangements connected with a disability, please contact, the Department Administrator, who is responsible for recruitment to this position. Alternatively, you may contact the Clinical School Recruitment Team who are responsible for recruitment to this position via: [cshrstaffhub@admin.cam.ac.uk](mailto:cshrstaffhub@admin.cam.ac.uk)

# The University

**The University of Cambridge is one of the world's oldest and most successful universities. We are a renowned centre for research, education, and scholarship that makes a significant contribution to society. The University is consistently ranked amongst the top universities in the world. Our affiliates have won more Nobel Prizes than any other University.**

Our sustained pursuit of academic excellence is built on a long history of first-class teaching and research within a distinctive collegiate system. For eight centuries our ideas and innovations have shaped the world. Our principal goal is to remain one of the world's leading universities in an increasingly competitive global higher education sector. Today the University of Cambridge is at the centre of a cluster of over 4,300 businesses employing 58,000 people.

Our capital investment projects include the West Cambridge site, the North West Cambridge development and the growth of the Biomedical Campus in the south of the city. The North West Cambridge development includes the opening of a primary school – the first in the UK to be managed by a University. So we are deeply embedded in, and committed to serving, our local community. These are all conspicuous signs of a University that is not only adapting to new needs, but also anticipating the future.

Our mission is to contribute to society through the pursuit of education, learning, and research at the highest international levels of excellence. Our core values are:

- freedom of thought and expression; and
- freedom from discrimination.

# About Us

**The University is one of the world's leading academic centres. It comprises 150 faculties and departments, together with a central administration and other institutions. Our institutions, museums and collections are a world-class resource for researchers, students and members of the public representing one of the country's highest concentrations of internationally important collections.**

The University has an annual income of £2 billion. Research income, won competitively from the UK Research Councils, the European Union (EU), major charities and industry, exceeds £500 million per annum and continues to grow.

The Colleges and the University remain committed to admitting the best students regardless of their background and to investing considerable resources both in widening access and financial support. The 31 Colleges are self-governing, separate legal entities which appoint their own staff. Many academic staff are invited to join a College as a Teaching Fellow, which provides a further social and intellectual dimension. The Colleges admit students, provide student accommodation and deliver small group teaching.

The University awards degrees and its faculties and departments provide lectures and seminars for students and determine the syllabi for teaching and conducting research.

Our instinct for seeking out excellence and setting up enduring and mutually beneficial collaborations has led us to establish strategic partnerships across the globe. Whether it is the successful Cambridge-Africa Programme involving universities in Ghana, Uganda and elsewhere on the African continent; or the close association with the government of India to pursue new research in crop science; or the creation, with Germany's Max Planck Institutes, of a Cambridge-based centre for the study of ethics, human economy and social change – international partnerships are now an inextricable part of the University's make-up.

“Cambridge graduates and researchers have made – and continue to make – a colossal contribution to human knowledge and the understanding of the world around us. Their work touches on the lives and livelihoods of everyone from patients diagnosed with life-threatening diseases, to residents of areas critically affected by climate change, to children growing up in conflict zones. It has a lasting impact on our society, our economy and our culture: the world is truly a better place thanks to their efforts.”

*Stephen Toope, Vice Chancellor 2019*

# Working at the University

**Working at Cambridge you will join a diverse, talented and innovative community, with more than 18,000 students and over 16,000 staff from all walks of life and corners of the world.**

The University continually explores strategies to attract and retain the best people. It is committed to supporting its staff to achieve their best. We are a fair, diverse and inclusive society and we believe our staff are our greatest asset. There is strong commitment to developing institutional leadership and supporting and encouraging staff development at all levels.

We offer a variety of roles including academic, research, professional, managerial and support roles. We also offer extensive benefits and excellent learning opportunities within a stimulating working environment.

The University's estate is undergoing the most significant transformation in its history. Cambridge has been able to create a new science and technology campus to the west of the city centre, and is now expanding further to the north west of Cambridge including investing in affordable homes for University key workers and community facilities. Even with our continued development, the University remains within walking or cycling distance across the campus. The University is a major partner on the Cambridge Biomedical Campus and we continue to redevelop our historic city centre sites demonstrating our determination to ensure that we can offer the best facilities and opportunities for our staff and students.

## **Equality & diversity**

The University has built its excellence on the diversity of its staff and student community. We aim to be a leader in fostering equality and inclusion, and in promoting respect and a sense of belonging for all. We encourage applications from all sections of society. All appointments are made on the basis of merit. We have an Equal Opportunities Policy, along with a range of diversity networks for women, black and minority ethnic and lesbian, gay, bisexual and transgender staff. More details are available here: <http://www.equality.admin.cam.ac.uk/>

The University has a bronze Race Equality Charter award, with framework for improving the representation, progression and success of minority ethnic staff and students within higher education. Furthermore, the University's Athena SWAN award recognises and celebrates good practice in recruiting, retaining and promoting women.

# Living in Cambridge

**Cambridge is rich in cultural diversity. From beautiful University and College buildings, museums and art galleries, quaint gardens and punts on the River Cam, to a vibrant restaurant and café scene, our employees are surrounded by the wonderful features of this unique city.**

You can find a wide-range of high street shops and 3 shopping centres, with independent alternatives at the historic market and nestled within the passageways in the city centre. You will find a cinema, bowling alley, a nightclub and various live performances At the Cambridge Leisure Park, with further entertainment options at the Corn Exchange, Arts Theatre and the ADC Theatre. Further information can be found on the [Visit Cambridge](#) website.

If you prefer the faster pace of life, London is a 45 minute train journey away. For those travelling from overseas, Stansted Airport is just 45 minutes away and Heathrow Airport under 2 hours away. The University is a short distance from a host of other attractions such as Ely Cathedral, Newmarket Races and various wildlife parks and stately homes. Cambridge is also within easy reach of the beautiful Broads and coastlines of Norfolk and Suffolk.

## Relocation Support

The University recognises the importance of helping individuals to move and settle into a new area. We provide support and guidance to those relocating internationally or domestically to take up a post at the University of Cambridge, liaising with other University offices and selected partners to ensure comprehensive relocation support is available. This includes: accommodation, childcare, schools, banking, immigration and transport. If you would like further information, please visit <https://www.accommodation.cam.ac.uk/>. The Shared Equity Scheme and the Reimbursement of Relocation Expenses Scheme provide financial assistance to qualifying new members of staff with the costs of relocating to Cambridge.

## Accommodation Service

The University Accommodation Service helps staff, students and visiting scholars who are affiliated to the University in their search for suitable accommodation in Cambridge. The dedicated accommodation team can provide access to a wide range of University-owned furnished and unfurnished properties, and has a database of private sector accommodation available for short and long-term lets. For further information and to register with this free service please visit <https://www.accommodation.cam.ac.uk/>

# What Cambridge can offer

**We offer a comprehensive reward package to attract, motivate and retain high performing staff at all levels and in all areas of work.**

The University offers a wide range of competitive benefits, from family leave entitlement, to shopping and travel discount schemes. Our generous annual leave package contributes to the positive wellbeing of our University employees. Sabbatical leave enables academics to focus on research and scholarship, whilst still maintaining their full salary. The University also has a [career break scheme for academic and academic-related staff](#), with additional flexible working policies for all other staff.

## Pay and benefits

The University salary structure includes automatic service-related pay progression in many of its grades and an annual cost of living increase. In addition to this, employees are rewarded for outstanding contribution through a number of regular pay progression schemes. The University offers attractive pensions schemes for employees, with an additional benefit of a salary exchange arrangement providing tax and national insurance savings. Payroll giving is also a simple, tax-efficient way for employees to make monthly donations to charity.

## CAMbens employee benefits

We offer a CAMbens scheme for University employees, providing access to online and in-store shopping discounts and cashback. With more than 2,000 participating retailers, employees can save money on a wide range of household expenses, from groceries and clothes, to holidays and insurance and much more. A range of local discounts are also available, helping employees to save money whilst also supporting local Cambridge businesses and a CAMbens Cycle to Work salary sacrifice scheme is also available, which enables employees to save money on transport costs. A 10% discount rate on the [purchase of train season tickets, bulk buy tickets](#) and an interest free travel to work loan are also available for staff of the University.

# What Cambridge can offer

## Family-friendly policies

The University recognises the importance of supporting its staff. We have a range of family-friendly policies to aid employees' work-life balance including a generous maternity, adoption and shared parental leave entitlement of 18 weeks full pay and emergency family care support via My Family Care.

Other family-friendly support includes:

Our highly regarded workplace nurseries, a childcare salary exchange scheme and a high quality holiday Playscheme may be available to help support University employees with caring responsibilities (subject to demand and qualifying criteria). Further childcare information can be found here:

<https://www.childcare.admin.cam.ac.uk/>

The Newcomers and Visiting Scholars Group is an organisation within the University run by volunteers whose aim is to help newly arrived wives, husbands, partners and families of Visiting Scholars and members of the University to settle in Cambridge and give them an opportunity to meet local people. The Office of Postdoctoral Affairs supports the postdoctoral community within Cambridge. Further details are available here: <https://www.opda.cam.ac.uk/>

## Your wellbeing

The University's Sport Centre, Counselling Services and Occupational Health are just some of the support services available to University employees to promote their physical and mental wellbeing. There are many societies in Cambridge catering for almost every taste and interest. Whether you want to take part in a sport, participate in music or drama, pursue a hobby, or join a political group, you will almost certainly find that a society exists for this purpose. The University also hosts the [Cambridge Science Festival](#) and [Cambridge Festival of Ideas](#), as well as [Open Cambridge](#) weekend, which together attract over 50,000 visitors per year. The festivals are a great opportunity to get your first taste of public engagement, through volunteering, supporting hands-on activities or proposing a talk.

## Development opportunities

We support new employees to settle in through various activities. The encouragement of career development for all staff is one of the University's values and we put this into practice through various services and initiatives. Our Personal and Professional Development Department provides development opportunities and courses for all University employees. These include face-to-face sessions, online learning modules and webinars. Employees may also apply for financial support to undertake training that will lead to a qualification. We offer reduced staff fees for University of Cambridge graduate courses and the opportunity to attend lectures and seminars held by University departments and institutions. Apprenticeship programmes are also available to support employees to develop their skills, experience and qualifications.

# Clinical School Benefits

## Cambridge Biomedical Campus

Being based on Cambridge Biomedical Campus gives the University of Cambridge School of Clinical Medicine employees an unrivalled range of on-site amenities.

### These include:

#### Core amenities

- Marks & Spencer Simply Food
- Clothes & Gift shops
- The Body Shop
- Newsagent
- Barclays Bank
- Hairdressers
- Costa Coffee/Starbucks
- Various food outlets

#### Sports and Leisure

The Frank Lee Sports and Leisure Centre on the Campus is open to everyone who works on the Campus including employees of companies. The Centre offers a comprehensive range of activities for both adults and children (during the school holidays). Facilities include a 25m heated indoor pool, tennis and squash courts, cardio gym and fitness rooms. There is also a licensed bar, restaurant and function rooms.

#### Childcare

Bright Horizons Long Road nursery is located on the Campus making it an ideal location for parents who work at the site. The nursery is purpose built and houses five home bases, each designed specifically for babies, toddlers and pre-school children, as well as a spacious and secure external area in which children can play and explore the outdoors.

#### Apprenticeship opportunities

These are available for new and current members of staff to earn while they learn. The University is committed to nurturing talent and developing expertise through providing relevant vocational and professional apprenticeships across all of its departments and institutions.

## Clinical School Wellbeing Programme

Following the launch of the Clinical School Wellbeing Programme in April 2014 it has continued to develop and grow each year. The School holds regular wellbeing talks and events in addition to hosting two dedicated Wellbeing Weeks packed with activities for staff each year. Activities include staff massages, smoothie bikes, step challenges, arts and crafts sessions and many more.

The School also has a team of Mental Health First Aiders recruited and trained from our own pool of staff. The School is always looking for new ways to engage staff and encourage them to look after their physical and mental wellbeing.

## Equality, Diversity and Inclusion

The School of Clinical Medicine has a dedicated governance group overseeing equality, diversity and inclusion related activities. Regular talks are held throughout the year and all staff members are expected to undertake Equality and Diversity training.

The School has a number of networks for different staff groups encouraging communication and sharing of practices. There is also a growing network of 100+ Equality Champions who meet termly and help raise awareness of equality, diversity and inclusion within their departments. The School currently holds a silver Athena SWAN award utilising the process to critically analyse all areas of equality and diversity within the school.

# How to apply

Applications should be submitted online via the University of Cambridge jobs page [www.jobs.cam.ac.uk](http://www.jobs.cam.ac.uk) by clicking “Apply online” in the job advert. You will need an email address to register for our online system.

Conversations about flexible working are encouraged at the University of Cambridge. Please feel free to discuss flexibility prior to applying (using the contact information below) or at interview if your application is successful.

Informal enquiries are welcomed and should be directed to:

**Digital Tools Team Lead**

**Email:** [dtc\\_admin\\_mrc@mrc-epid.cam.ac.uk](mailto:dtc_admin_mrc@mrc-epid.cam.ac.uk)

If you have any queries regarding the application process please contact [recruitment@mrc-epid.cam.ac.uk](mailto:recruitment@mrc-epid.cam.ac.uk))

The closing date for applications is: 29<sup>th</sup> September 2024
