General Information

The University of Cambridge

The University of Cambridge is one of the world's oldest and most successful universities. We are a renowned centre for research, education, and scholarship that makes a significant contribution to society. The University is consistently ranked amongst the top universities in the world. Our affiliates have won more Nobel Prizes than any other University.

Our sustained pursuit of academic excellence is built on a long history of first-class teaching and research within a distinctive collegiate system. For eight centuries our ideas and innovations have shaped the world. Our principal goal is to remain one of the world's leading universities in an increasingly competitive global higher education sector. Today the University of Cambridge is at the centre of a cluster of over 4,300 businesses employing 58,000 people.

Our capital investment projects include the West Cambridge site, the North West Cambridge development and the growth of the Biomedical Campus in the south of the city. The North West Cambridge development includes the opening of a primary school – the first in the UK to be managed by a University. So we are deeply embedded in, and committed to serving, our local community. These are all conspicuous signs of a University that is not only adapting to new needs, but also anticipating the future.

About Us

The University is one of the world's leading academic centres. It comprises 150 faculties and departments, together with a central administration and other institutions. Our institutions, museums and collections are a world-class resource for researchers, students and members of the public representing one of the country's highest concentrations of internationally important collections. The University has an annual income of £2 billion. Research income, won competitively from the UK Research Councils, the European Union (EU), major charities and industry, exceeds £500 million per annum and continues to grow.

The Colleges and the University remain committed to admitting the best students regardless of their background and to investing considerable resources both in widening access and financial support. The 31 Colleges are self-governing, separate legal entities which appoint their own staff. Many academic staff are invited to join a College as a Teaching Fellow, which provides a further social and intellectual dimension. The Colleges admit students, provide student accommodation and deliver small group teaching. The University awards degrees and its faculties and departments provide lectures and seminars for students and determine the syllabi for teaching and conducting research.

Our instinct for seeking out excellence and setting up enduring and mutually beneficial collaborations has led us to establish strategic partnerships across the globe. Whether it is the successful Cambridge-Africa Programme involving universities in Ghana, Uganda and elsewhere on the African continent; or the close association with the government of India to pursue new research in crop science; or the creation, with Germany's Max Planck Institutes, of a Cambridge-based centre for the study of ethics, human economy and social change – international partnerships are now an inextricable part of the University's make-up.

The Department of Politics and International Studies

The establishment of the Department of Politics and International Studies (POLIS) in January 2009 provided a new institutional focus at Cambridge for teaching and research on politics in all its dimensions; international and comparative, theoretical and empirical, abstract and practical.

POLIS is a self-consciously pluralistic department. This is reflected in the disciplinary diversity of our members and their wide-ranging approaches to the study of politics, and is supplemented through our close links to a variety of area-specific and thematic research centres, as well as numerous other departments and faculties within Cambridge and beyond. POLIS has current and emerging research strengths in areas that include the historical and contemporary study of political thought, international relations, British and European politics, the study of the global South, development studies, political economy, public policy and gender.

The Department offers a collaborative undergraduate Tripos as part of Faculty of Human, Social and Political Science as well as a joint History & Politics Tripos. The Department also offers a range of MPhil and PhD programmes and includes many research and teaching centres, including the Area Centres of African Studies, Latin American Studies, South Asian Studies, Development Studies, Gender Studies and the Bennett Institute for Public Policy, which are all housed together in the Alison Richard Building on the Sidgwick Site.
