

# System Integration Specialist

Department of Oncology

Closing date: 27<sup>th</sup> April 2025

Job Reference: RD45554

# System Integration Specialist

**Salary:**

£35,116 - £45,413 per annum

**Contract:**Fixed Term – 31<sup>st</sup> March 2027**Location:**

Cambridge

**Department:**

Oncology

**Responsible to:**Marcin Waryszak, Cancer  
Clinical Lead**Working Pattern:**

Full Time

**Purpose of the role**

The Cancer Clinical Informatics (CCI) team supports a range of clinical and research systems across the University of Cambridge and Cambridge University Hospitals NHS Foundation Trust (CUH). These systems enable efficient data management, interoperability, and compliance within clinical and biomedical research environments. A core function of the CCI team is ensuring seamless data exchange across different platforms, enabling research teams to use high-quality, well-integrated datasets for translational and clinical research. This integration effort requires expertise in system interoperability, API development, data extraction, and automation to maintain efficiency and compliance with regulatory frameworks.

The System Integration Specialist will play a key role in developing, maintaining, and optimising integrations between multiple systems used within the Cancer Clinical Informatics team. This includes Achiever Medical LIMS, REDcap, cBioPortal, EPIC (EHR), and other platforms. Some of these systems have existing APIs, while others require the development of custom integration mechanisms using standalone scripts, scheduled tasks, and SQL Server Stored Procedures.

The post holder will be responsible for designing scalable, and efficient data pipelines and integrations, ensuring smooth data flow across multiple platforms. They will also provide third-line technical support for integration-related issues and assist in troubleshooting complex system connectivity challenges.

The successful candidate will work closely within the CCI team, receiving training as needed to fill knowledge gaps. They will interact regularly with team members and stakeholders across the Cambridge Biomedical Campus, supporting research teams by enabling seamless integration and data accessibility. This position requires strong technical skills in integration development, such as API, SQL, Python, and system integration techniques. Experience with HL7, XML, JSON data formats would be beneficial. As this role is embedded in the CCI team, the post holder must have excellent communication skills and be comfortable engaging with stakeholders across campus.

**Key responsibilities****System Integration and Development**

- Develop, deploy, and maintain integrations between key clinical and research systems (Achiever Medical LIMS, cBioPortal, Redcap, EPIC, etc.)
- Create and/or optimise APIs, scripts, scheduled tasks, and SQL stored procedures to automate data integration
- Identify integration issues proactively and resolve escalations, working closely with all stakeholders and rest of the team

**Data Management and Quality Assurance**

- Documentation, validation, minutes and reports.
- Support data extraction, transformation, and loading (ETL) tasks as needed
- Ensure data integrations adhere strictly to regulatory compliance, security, and data governance policies

**Technical Support and Troubleshooting**

- Provide third-line support for integration and data flow issues escalated by the LIMS Technical Coordinator
- Assist with diagnosing and resolving complex system integration issues, providing guidance and technical solutions

**Documentation & Validation**

- Maintain comprehensive documentation for all integrations, scripts, and system changes
- Ensure all changes follow validation processes, including testing, approval, and version control

**Collaboration and Communication**

- Engage proactively with technical and non-technical stakeholders across the campus to understand integration requirements and implement effective solutions
- Work collaboratively with the wider CCI team, supporting the department's growth and alignment with the broader informatics strategy

# Person Specification

Criteria	Essential	Desirable
<b>Education and qualification</b>		
Degree level qualification/Level7NVQ vocational qualification or equivalent level of experience	✓	
<b>Experience</b>		
Proven experience in system integration, API development, or automation scripting	✓	
Experience writing, maintaining, and optimising SQL queries, scripts, and stored procedures	✓	
Experience with healthcare or clinical data systems (e.g., Achiever, EPIC, Redcap, cBioPortal)		✓
Evidence of troubleshooting technical problems	✓	
Experience working with confidential information		✓
Knowledge or experience of HL7, FHIR, XML, JSON integration and data standards		✓
Experience providing technical support or troubleshooting system integrations		✓
Working with project management tools (Jira and Jira Service Management)		✓
Web server administration experience, including maintaining and securing hosted applications		✓
Experience with middleware technologies for system integration, data exchange, and interoperability	✓	
<b>Skills</b>		
Strong programming skills (any back-end object-oriented language)	✓	
Strong organisational skills	✓	
Ability to communicate clearly and effectively with technical and non-technical stakeholders	✓	
Working knowledge of healthcare level Information Governance		✓
Knowledge of methods to validate IT systems		✓
Proactive, enthusiastic, and collaborative approach to work	✓	
Knowledge of DevOps tools and practices (e.g., Git, Jenkins, CI/CD)		✓
Documentation and validation of system integrations		✓
Awareness and understanding of data security and governance frameworks (GDPR, HTA, NHS IG)		✓

# Behavioural Attributes

This section summarises the behavioural attributes (or competencies) that we expect the role holder to be able to demonstrate, at what level and whether this is an essential or desirable requirement.

Full definitions are at: <https://www.hr.admin.cam.ac.uk/policies-procedures/behavioural-attributes>

Please review these and provide specific examples in your application of how you have demonstrated these attributes in your work, education or other experience. It will assist your application if you explain the situation, what you did and what the outcomes were.

Attribute	Level
Valuing Diversity	A
Achieving Results	B
Communication	C
Innovation and Change	C
Negotiating and Influencing	C
People Development	C
Relationship Building	B
Strategic Focus	C

# Department of Oncology

The Department of Oncology is an academic department within the School of Clinical Medicine at the University of Cambridge.

In August 2015 Professor Richard Gilbertson, a world leading expert on childhood brain tumours, was appointed Head of Department and Director of the Cancer Research UK Cambridge Centre.

*The mission of the Department of Oncology is to reduce the morbidity and mortality of patients with cancer through research, treatment and education.*

We are based within 11 geographical locations:

- Cambridge Breast Cancer Research Unit
- Cambridge Cancer Trials Centre (S4 Block, Coton House & Norman Bleeahan Offices)
- Cancer Research UK Cambridge Institute
- Clifford Allbutt Building, Cancer Molecular Diagnostics Laboratory
- Clinical Oncology - R4 Block
- Early Cancer Institute
- Strangeways Research Laboratory
- Wellcome Trust-MRC Stem Cell Institute
- Wellcome Trust Sanger Institute

Our location on the Biomedical Research Campus provides access to state-of-the-art clinical and research facilities and enables close collaboration with world class laboratory scientists and doctors

We have 200 staff and students, including 18 Research Group Leaders, many of whom are also medical doctors, which ensures strong

links between our laboratory science and its clinical application for the benefit of patients.

## Our research

The Department of Oncology is at the forefront of an ever-expanding field of cancer research.

Our main focus is on translating basic scientific findings into clinical applications for treatment, diagnosis and prevention of cancer.

The research interests of the Department are funded mainly by Cancer Research UK, the Medical Research Council and the National Institute of Health Research (NIHR) Cambridge Biomedical Research Centre and can be divided into 3 broad disciplines:

- Basic Laboratory Research
- Translational Research
- Clinical Research

Our Research Group Leaders (many of whom are also practising clinicians), direct multi-disciplinary teams, which ensures strong links between our laboratory science and its clinical application for the benefit of patients.

Professor Richard Gilbertson, Head of Department.

## Clinical Informatics

The Centre for Cambridge Clinical Informatics (CCI) was established in 2014 with the introduction of the Cambridge University Hospitals NHS Foundation Trust (CUH) electronic medical record (EMR) system known as eHospital, and significant funding from the Cambridge Biomedical Research Centre (BRC) under the newly established Informatics Theme.

Within CCI we are currently:

- developing platforms and corresponding regulation to enable clinical research for all investigators working on translational research;
- conducting a wide range of research within clinical informatics, consisting of exemplar uses of data, development of EMR interventions, and understanding human-technology interactions;
- establishing collaborations with health and social care providers in the local CUH catchment area for data sharing;
- developing Clinical Informatics for different levels of EMR and eHealth capability; and
- establishing a framework for data sharing, regulation and expansion, including public engagement.

For further information, see here:

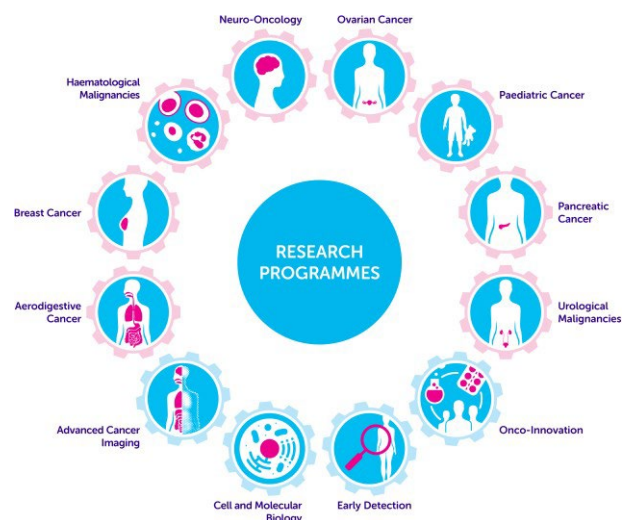

<http://www.clinicalinformatics.group.cam.ac.uk/about-us/>

## CRUK Cambridge Centre

The Cancer Research UK Cambridge Centre (CRUK CC) is a dynamic collaboration of researchers, clinicians, and pharmaceutical and biotech industries based in the Cambridge area. By working together across different disciplines, the Centre is breaking down the barriers between the laboratory and the clinic, enabling patients to benefit from the latest innovations in cancer science. We combine world-class science and technology with excellent patient care to pioneer new ways to prevent, detect and treat cancer.

The ~800 CRUK CC members are organised into 12 programmes that represent the 'engines' of our research enterprise. Each comprises of closely-knit teams of laboratory and clinic-based researchers who meet regularly to design and drive research. Eight disease-specific programmes discover new ways to diagnose, monitor and treat cancer, and focus on our established research strengths in aerodigestive, brain, breast, haematological, ovarian, paediatric, pancreatic and urological cancers.

Four discipline-focused programmes in Advanced Cancer Imaging, Cell and Molecular Biology, Early Cancer Detection and Onco-Innovation make fundamental discoveries in cancer biology, and invent new biomarker, clinical device and treatment approaches. Each one of the programmes has a dedicated programme manager or similar role associated with it, helping to drive progress in each one of the areas of research, together with their programme leads.

For further information, see here:

<https://crukcambridgecentre.org.uk/>

# School of Clinical Medicine

Doing great work in a great place to work

## About the School

The School of Clinical Medicine currently employs nearly 3,000 people, spanning all varieties of staff type from Academic Professors to administrative support.

In 1976 in response to the recommendation of the Royal Commission on Medical Education in the late 1960's, a complete medical course was re-established in Cambridge with the opening of the School of Clinical Medicine at the new Addenbrooke's Hospital site.

On 21st November 1980, HRH The Duke of Edinburgh, the Chancellor of the University of Cambridge, officially opened the Clinical School Building which presently accommodates the medical library, lecture theatres and seminar rooms.

The University of Cambridge School of Clinical Medicine aspires to change the practice of medicine and improve biological understanding in a wide range of clinical specialties and scientific disciplines. Collaborative research, both within biomedicine and crossing the boundaries to the mathematical, physical and social sciences, is key to our approach. The School also supports key enabling technologies and facilities in imaging, bioinformatics and biological systems. The main areas of research interest are:

- Cancer research
- Cardio-Respiratory Medicine
- Cellular mechanisms of disease
- Diabetes, Endocrinology and Metabolism
- Epidemiology, Public Health and Primary Care
- Genetics and Genetic Medicine
- Haematological and Transplantation Medicine
- Infection and Immunity
- Neurosciences and Mental Health
- Stems Cells and Regenerative Medicine.

**Professor Patrick Maxwell, Regius Professor of Physic and Head of the School of Clinical Medicine**

The School aims to provide leadership in education, discovery and healthcare. It will achieve this through; inspirational teaching and training, outstanding basic and clinical research and integration of these to improve medical practice for both individual patients and the population.

## The School will:

Through inspirational teaching and training, educate individuals who:

- will become exceptional doctors or biomedical scientists
- combine a depth of scientific understanding with outstanding clinical and communication skills demonstrate a caring, compassionate and professional approach to patients and the public and
- are equipped to become future international leaders of their profession.

Through its commitment to the pursuit of excellence, support scientists of international standing in basic and clinical research aiming to:

- understand fundamental biology and thereby the mechanisms underlying disease integrate basic and clinical research
- apply a rigorous mechanism-based approach to clinical problems and
- innovate to solve the health challenges of our society.

# Terms of Appointment

## Tenure and probation

Appointment will be made on a fixed-term basis until 31<sup>st</sup> March 2027. Appointments will be subject to satisfactory completion of a probationary period which will be set dependant on the length of tenure.

## Salary

The starting salary would normally be at the bottom of the scale.

## Hours of Work and Working Pattern

The hours of work for the position are full-time, 37 hours per week, working Monday – Friday.

## Pension

You will automatically be enrolled to become a member of USS (Universities Superannuation Scheme) – a defined benefits pension scheme. For further information please visit: [www.pensions.admin.cam.ac.uk/](http://www.pensions.admin.cam.ac.uk/).

## Annual leave

Full time employees are entitled to annual paid leave of 41 days inclusive of public holidays. For new part-time employees, annual leave will be pro rata'd based on days worked.

## General information

### Pre-employment checks

#### Right to work in the UK

We have a legal responsibility to ensure that you have the right to work in the UK before you can start working for us. If you do not have the right to work in the UK already, any offer of employment we make to you will be conditional upon you gaining it.

## Health declaration

Once an offer of employment has been made the successful candidate will be required to complete a work health declaration form.

## Qualifications

The person specification for this position lists qualifications that are essential and/or desirable. Please note that if you are offered the post you will be asked to provide your relevant original certificates of these qualifications.

## References

Offers of appointment will be subject to the receipt of satisfactory references.

## Screening Checks

This role requires a basic disclosure/a security check. Any offer of employment we make to you will be conditional upon the satisfactory completion of these checks; whether an outcome is satisfactory will be determined by the University. The nature of this role means that the successful candidate will also need to undergo a health assessment. This role requires a Research Passport with the relevant Trust.

## Equality and Diversity

We particularly encourage women and /or candidates from a Black, Asian and Minority Ethnic background to apply for this vacancy as they are currently under-represented at this level within our University.

## Information if you have a disability

The University welcomes

applications from individuals with disabilities. We are committed to ensuring fair treatment throughout the recruitment process. We will make adjustments to enable applicants to compete to the best of their ability wherever it is reasonable to do so and, if successful, to assist them during their employment.

Information for disabled applicants is available at <http://www.admin.cam.ac.uk/offices/hr/staff/disabled/>

We encourage you to declare any disability that you may have, and any reasonable adjustments that you may require, in the section provided for this purpose in the application form. This will enable us to accommodate your needs throughout the process as required. However, applicants and employees may declare a disability at any time.

If you prefer to discuss any special arrangements connected with a disability, please contact, the Department Administrator, who is responsible for recruitment to this position. Alternatively, you may contact the Clinical School Recruitment Team who are responsible for recruitment to this position via: [oncologyhr@admin.cam.ac.uk](mailto:oncologyhr@admin.cam.ac.uk)

# The University

**The University of Cambridge is one of the world's oldest and most successful universities. We are a renowned centre for research, education, and scholarship that makes a significant contribution to society. The University is consistently ranked amongst the top universities in the world. Our affiliates have won more Nobel Prizes than any other University.**

Our sustained pursuit of academic excellence is built on a long history of first-class teaching and research within a distinctive collegiate system. For eight centuries our ideas and innovations have shaped the world. Our principal goal is to remain one of the world's leading universities in an increasingly competitive global higher education sector. Today the University of Cambridge is at the centre of a cluster of over 4,300 businesses employing 58,000 people.

Our capital investment projects include the West Cambridge site, the North West Cambridge development and the growth of the Biomedical Campus in the south of the city. The North West Cambridge development includes the opening of a primary school – the first in the UK to be managed by a University. So we are deeply embedded in, and committed to serving, our local community. These are all conspicuous signs of a University that is not only adapting to new needs, but also anticipating the future.

Our mission is to contribute to society through the pursuit of education, learning, and research at the highest international levels of excellence. Our core values are:

- freedom of thought and expression; and
- freedom from discrimination.

# About Us

**The University is one of the world's leading academic centres. It comprises 150 faculties and departments, together with a central administration and other institutions. Our institutions, museums and collections are a world-class resource for researchers, students and members of the public representing one of the country's highest concentrations of internationally important collections.**

The University has an annual income of £2 billion. Research income, won competitively from the UK Research Councils, the European Union (EU), major charities and industry, exceeds £500 million per annum and continues to grow.

The Colleges and the University remain committed to admitting the best students regardless of their background and to investing considerable resources both in widening access and financial support. The 31 Colleges are self-governing, separate legal entities which appoint their own staff. Many academic staff are invited to join a College as a Teaching Fellow, which provides a further social and intellectual dimension. The Colleges admit students, provide student accommodation and deliver small group teaching.

The University awards degrees and its faculties and departments provide lectures and seminars for students and determine the syllabi for teaching and conducting research.

Our instinct for seeking out excellence and setting up enduring and mutually beneficial collaborations has led us to establish strategic partnerships across the globe. Whether it is the successful Cambridge-Africa Programme involving universities in Ghana, Uganda and elsewhere on the African continent; or the close association with the government of India to pursue new research in crop science; or the creation, with Germany's Max Planck Institutes, of a Cambridge-based centre for the study of ethics, human economy and social change – international partnerships are now an inextricable part of the University's make-up.

“Through its outstanding education, research and innovation, the University of Cambridge has made – and continues to make – a lasting contribution to human knowledge and is flourishing. By working at the University of Cambridge, you will be joining a vibrant community of students, scholars and professional services staff committed to supporting and enhancing the University's mission to contribute to society.”

Prof Deborah Prentice, Vice Chancellor 2023

# Working at the University

**Working at Cambridge you will join a diverse, talented and innovative community, with more than 18,000 students and over 16,000 staff from all walks of life and corners of the world.**

The University continually explores strategies to attract and retain the best people. It is committed to supporting its staff to achieve their best. We are a fair, diverse and inclusive society and we believe our staff are our greatest asset. There is strong commitment to developing institutional leadership and supporting and encouraging staff development at all levels.

We offer a variety of roles including academic, research, professional, managerial and support roles. We also offer extensive benefits and excellent learning opportunities within a stimulating working environment.

The University's estate is undergoing the most significant transformation in its history. Cambridge has been able to create a new science and technology campus to the west of the city centre, and is now expanding further to the north west of Cambridge including investing in affordable homes for University key workers and community facilities. Even with our continued development, the University remains within walking or cycling distance across the campus. The University is a major partner on the Cambridge Biomedical Campus and we continue to redevelop our historic city centre sites demonstrating our determination to ensure that we can offer the best facilities and opportunities for our staff and students.

## Equality & diversity

The University has built its excellence on the diversity of its staff and student community. We aim to be a leader in fostering equality and inclusion, and in promoting respect and a sense of belonging for all. We encourage applications from all sections of society. All appointments are made on the basis of merit. We have an Equal Opportunities Policy, along with a range of diversity networks for women, black and minority ethnic and lesbian, gay, bisexual and transgender staff. More details are available here: <http://www.equality.admin.cam.ac.uk/>

The University has a bronze Race Equality Charter aware, with framework for improving the representation, progression and success of minority ethnic staff and students within higher education. Furthermore, the University's Athena SWAN award recognises and celebrates good practice in recruiting, retaining and promoting women.

# Living in Cambridge

**Cambridge is rich in cultural diversity. From beautiful University and College buildings, museums and art galleries, quaint gardens and punts on the River Cam, to a vibrant restaurant and café scene, our employees are surrounded by the wonderful features of this unique city.**

You can find a wide-range of high street shops and 3 shopping centres, with independent alternatives at the historic market and nestled within the passageways in the city centre. You will find a cinema, bowling alley, a nightclub and various live performances At the Cambridge Leisure Park, with further entertainment options at the Corn Exchange, Arts Theatre and the ADC Theatre. Further information can be found on the [Visit Cambridge](#) website.

If you prefer the faster pace of life, London is a 45 minute train journey away. For those travelling from overseas, Stansted Airport is just 45 minutes away and Heathrow Airport under 2 hours away. The University is a short distance from a host of other attractions such as Ely Cathedral, Newmarket Races and various wildlife parks and stately homes. Cambridge is also within easy reach of the beautiful Broads and coastlines of Norfolk and Suffolk.

## Relocation Support

The University recognises the importance of helping individuals to move and settle into a new area. We provide support and guidance to those relocating internationally or domestically to take up a post at the University of Cambridge, liaising with other University offices and selected partners to ensure comprehensive relocation support is available. This includes: accommodation, childcare, schools, banking, immigration and transport. If you would like further information, please visit <https://www.accommodation.cam.ac.uk/>. The Shared Equity Scheme and the Reimbursement of Relocation Expenses Scheme provide financial assistance to qualifying new members of staff with the costs of relocating to Cambridge.

## Accommodation Service

The University Accommodation Service helps staff, students and visiting scholars who are affiliated to the University in their search for suitable accommodation in Cambridge. The dedicated accommodation team can provide access to a wide range of University-owned furnished and unfurnished properties, and has a database of private sector accommodation available for short and long-term lets. For further information and to register with this free service please visit <https://www.accommodation.cam.ac.uk/>

# What Cambridge can offer

**We offer a comprehensive reward package to attract, motivate and retain high performing staff at all levels and in all areas of work.**

The University offers a wide range of competitive benefits, from family leave entitlement, to shopping and travel discount schemes. Our generous annual leave package contributes to the positive wellbeing of our University employees. Sabbatical leave enables academics to focus on research and scholarship, whilst still maintaining their full salary. The University also has a career break scheme for academic and academic-related staff, with additional flexible working policies for all other staff.

## Pay and benefits

The University salary structure includes automatic service-related pay progression in many of its grades and an annual cost of living increase. In addition to this, employees are rewarded for outstanding contribution through a number of regular pay progression schemes. The University offers attractive pensions schemes for employees, with an additional benefit of a salary exchange arrangement providing tax and national insurance savings. Payroll giving is also a simple, tax-efficient way for employees to make monthly donations to charity.

## CAMbens employee benefits

We offer a CAMbens scheme for University employees, providing access to online and in-store shopping discounts and cashback. With more than 2,000 participating retailers, employees can save money on a wide range of household expenses, from groceries and clothes, to holidays and insurance and much more. A range of local discounts are also available, helping employees to save money whilst also supporting local Cambridge businesses and a CAMbens Cycle to Work salary sacrifice scheme is also available, which enables employees to save money on transport costs. A 10% discount rate on the purchase of train season tickets, bulk buy tickets and an interest free travel to work loan are also available for staff of the University.

# What Cambridge can offer

## Family-friendly policies

The University recognises the importance of supporting its staff. We have a range of family-friendly policies to aid employees' work-life balance including a generous maternity, adoption and shared parental leave entitlement of 18 weeks full pay and emergency family care support via My Family Care.

Other family-friendly support includes:

Our highly regarded workplace nurseries, a childcare salary exchange scheme and a high quality holiday Playscheme may be available to help support University employees with caring responsibilities (subject to demand and qualifying criteria). Further childcare information can be found here:

<https://www.childcare.admin.cam.ac.uk/>

The Newcomers and Visiting Scholars Group is an organisation within the University run by volunteers whose aim is to help newly arrived wives, husbands, partners and families of Visiting Scholars and members of the University to settle in Cambridge and give them an opportunity to meet local people. The Office of Postdoctoral Affairs supports the postdoctoral community within Cambridge. Further details are available here: <https://www.opda.cam.ac.uk/>

## Your wellbeing

The University's Sport Centre, Counselling Services and Occupational Health are just some of the support services available to University employees to promote their physical and mental wellbeing. There are many societies in Cambridge catering for almost every taste and interest. Whether you want to take part in a sport, participate in music or drama, pursue a hobby, or join a political group, you will almost certainly find that a society exists for this purpose. The University also hosts the [Cambridge Science Festival](#) and [Cambridge Festival of Ideas](#), as well as [Open Cambridge](#) weekend, which together attract over 50,000 visitors per year. The festivals are a great opportunity to get your first taste of public engagement, through volunteering, supporting hands-on activities or proposing a talk.

## Development opportunities

We support new employees to settle in through various activities. The encouragement of career development for all staff is one of the University's values and we put this into practice through various services and initiatives. Our Personal and Professional Development Department provides development opportunities and courses for all University employees. These include face-to-face sessions, online learning modules and webinars. Employees may also apply for financial support to undertake training that will lead to a qualification. We offer reduced staff fees for University of Cambridge graduate courses and the opportunity to attend lectures and seminars held by University departments and institutions. Apprenticeship programmes are also available to support employees to develop their skills, experience and qualifications.

# Clinical School Benefits

## Cambridge Biomedical Campus

Being based on Cambridge Biomedical Campus gives the University of Cambridge School of Clinical Medicine employees an unrivalled range of on-site amenities.

### These include:

#### Core amenities

- Marks & Spencer Simply Food
- Clothes & Gift shops
- The Body Shop
- Newsagent
- Barclays Bank
- Hairdressers
- Costa Coffee/Starbucks
- Various food outlets

## Sports and Leisure

The Frank Lee Sports and Leisure Centre on the Campus is open to everyone who works on the Campus including employees of companies. The Centre offers a comprehensive range of activities for both adults and children (during the school holidays). Facilities include a 25m heated indoor pool, tennis and squash courts, cardio gym and fitness rooms. There is also a licensed bar, restaurant and function rooms.

## Childcare

Bright Horizons Long Road nursery is located on the Campus making it an ideal location for parents who work at the site. The nursery is purpose built and houses five home bases, each designed specifically for babies, toddlers and pre-school children, as well as a spacious and secure external area in which children can play and explore the outdoors.

## Apprenticeship opportunities

These are available for new and current members of staff to earn while they learn. The University is committed to nurturing talent and developing expertise through providing relevant vocational and professional apprenticeships across all of its departments and institutions.

## Clinical School Wellbeing Programme

Following the launch of the Clinical School Wellbeing Programme in April 2014 it has continued to develop and grow each year. The School holds regular wellbeing talks and events in addition to hosting two dedicated Wellbeing Weeks packed with activities for staff each year. Activities include staff massages, smoothie bikes, step challenges, arts and crafts sessions and many more.

The School also has a team of Mental Health First Aiders recruited and trained from our own pool of staff. The School is always looking for new ways to engage staff and encourage them to look after their physical and mental wellbeing.

## Equality, Diversity and Inclusion

The School of Clinical Medicine has a dedicated governance group overseeing equality, diversity and inclusion related activities. Regular talks are held throughout the year and all staff members are expected to undertake Equality and Diversity training.

The School has a number of networks for different staff groups encouraging communication and sharing of practices. There is also a growing network of 100+ Equality Champions who meet termly and help raise awareness of equality, diversity and inclusion within their departments. The School currently holds a silver Athena SWAN award utilising the process to critically analyse all areas of equality and diversity within the school.

# How to apply

Applications should be submitted online via the University of Cambridge jobs page [www.jobs.cam.ac.uk](http://www.jobs.cam.ac.uk) by clicking “Apply online” in the job advert. You will need an email address to register for our online system.

Conversations about flexible working are encouraged at the University of Cambridge. Please feel free to discuss flexibility prior to applying (using the contact information below) or at interview if your application is successful.

Informal enquiries are welcomed and should be directed to:  
Marcin Waryszak

**Email:** [mw791@cam.ac.uk](mailto:mw791@cam.ac.uk)

If you have any queries regarding the application process please contact [oncologyhr@admin.cam.ac.uk](mailto:oncologyhr@admin.cam.ac.uk)

The closing date for applications is: **27<sup>th</sup> April 2025**

The interview date for the role is: **To be confirmed**

UNIVERSITY OF  
CAMBRIDGE
